

TGT Robby 420 universal

THE ALL-TERRAIN ALLROUNDER

FACTS

The TGT Robby is equipped with 4 suction cups and lifts up to 420 kg. The flexible head lift can be rotated 360° manually, pivoted 180° and tilted up or down 100°. It can move laterally in steps of 10 cm and telescope forward 60 cm. The dual circuit suction system in accordance with EN 13155 is battery operated.

The Robby is equipped with a powerful electric drive and is easy to handle thanks to a double set of rear wheels. Hence it can easily be loaded into all vans by means of a ramp. The Robby 420 can be used on all terrains thanks to its powerful front-wheel drive and deep-tread tires.

- Total weight: ca.680 kg
- Dimensions (H x W x L): 1430 x 800 x 2300 mm
- Telescopic length: 600 mm
- Mobility of the flexible Suction head: - 100° to + 100°
- Speed regulation: continuously
- Side shift: 200 mm
- Lifting height: 2800 mm
- Charging current: 230 volts
- Charger: Cetek XT 14000
- Batteries: (2x12V) / 2x 85 A
- Operating time: app. 16 hours
- Sucker device after EN13155
